

PIPE TUB SYSTEMS

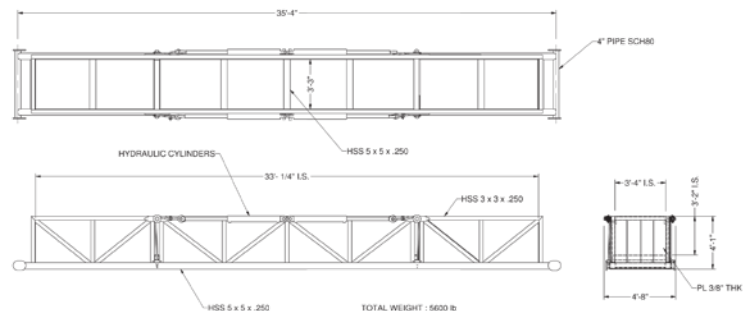

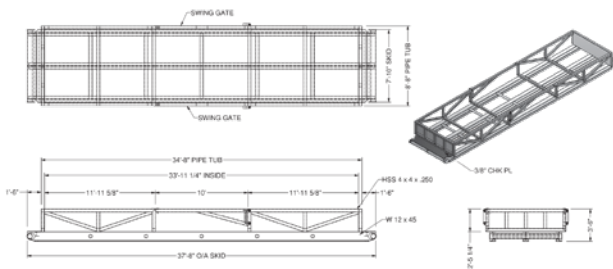

Engineered To Make Your Wellsite More Efficient!

Pipe Tubs are becoming more popular, as they will reduce your trucking and rig time costs. The use of the Pipe Tubs have been accredited for reducing accidents that are related to personnel that are frequently in contact with moving tubulars. Whether you choose the Hydraulic Pipe Tub or a Pipe Tub system without Hydraulics, you will be removing your personnel from the Critical Path.

Pipe Tubs, whether hydraulic or not are available in all lengths. This includes Range I, II, III.
